

## Articulation of the Diploma to a Bachelor Qualification in Dental Technology

An articulation arrangement between the National Diploma of Dental Technology (HLT50512) and the Bachelor of Oral Health in Dental Technology (1260) at Griffith University is in place.

A specified credit arrangement has been adopted between the Diploma of Dental Technology (DipDt - HLT50512) and the Bachelor of Oral Health in Dental Technology (BOH Dent Tech - 1260).

The articulation arrangement can be seen at:

<http://www.griffith.edu.au/admissions/credit-transfer-articulation>

Graduates from the Diploma of Dental Technology (HLT50512) can apply for entry into the Bachelor of Oral Health in Dental Technology (BOH DT - 1260) through the Queensland Tertiary Admission Centre (QTAC - <http://www.qtac.edu.au/>). Once accepted into the program they may apply for 80 credit points of specified credit. This means they may complete the Bachelor of Oral Health in Dental Technology in 2 years (4 semesters).

Credit is based on prior learning that will have been demonstrated through learning outcomes achieved in the Diploma of Dental Technology program that satisfy the objectives of components of the Bachelor of Oral Health Dental Technology program

A feature of the Bachelor of Oral Health in Dental Technology (BOH DT – 1260) is the inclusion of a Capstone course in the final semester, where students learn and work alongside dentistry students on specific patient prosthetic cases. You can see details of the 20 credit point courses at:

<http://www.capstonecurriculum.com.au/portfolio/case-study-dental-technology-at-the-griffith-oral-health-clinic/>
